## Product Warning

This extension helps you notify your customers about the potentially dangerous or fragile products on your website.

### Manage Warnings

To manage the product warnings go to **Catalog** → **Product Warnings**.

Here you will have a listing of the existing product warnings. You will be able to edit, delete, or create warnings.

#### Product Warnings

ID	Name	Type	Show in Cart	Created	Action
2	On Page	On Page Warning	Yes	Mar 2, 2020 3:17:29 PM	<a href="#">Edit</a>
3	In Popup	Popup Warning	No	Mar 2, 2020 5:46:57 PM	<a href="#">Edit</a>
5	Both on page and in popup	On Page Warning, Popup Warning	Yes	Mar 3, 2020 6:56:00 PM	<a href="#">Edit</a>

### Create/Edit Warning

For each Product Warning you will be able to set the following attributes:

- **Name** - The name of the product warning. It will only be used for admin management
- **Type of Warning** - This field defines the purpose of the warning. It can have the following values: **On Page Warning**, **Popup Warning**, or **both**. The **On Page Warning** type makes it so that the product warning will only be displayed in the product page, after the product price. The **Popup Warning** type makes it so that the product warning will only be displayed in a popup when the client clicks the add to cart button. The **On Page Warning, Popup Warning** makes it so that the product warning is displayed both on the product page and in a popup.
- **Show Warning in Cart** - If enabled, when a product that has this warning assigned gets added to the cart, a warning will be displayed in the cart under the product name.
- **Cart Item Warning Message** - This field contains the text message that will be displayed in the cart for the products that have this warning assigned, if the **Show Warning in Cart** is enabled.
- **On Page Warning Message** - This field contains the text message that will be displayed in the product page under the product price if the **Type of Warning** is set to **On Page Warning** or **On Page Warning, Popup Warning**.

- **Popup Warning Message** - This warning will be displayed in the popup when the clicks the add to cart button, if the **Type of Warning** is set to **Popup Warning** or **On Page Warning**, **Popup Warning**.

Name \*

Type of Warning \* 
  
The Type of Warning determines where the warning will be displayed on the product page.

Show Warning in Cart  Yes

Cart Item Warning Message 
  
If Show Warning in Cart is enabled, then this message will be displayed in the cart page under the product item.

On Page Warning Message 
  

  
Path: p.with-border » span » span » strong » span

Popup Warning Message 
  

  
Path: p » span » strong

## Assign Warning to Products

You can assign warnings to products in 2 ways: from the product edit form or from the product grid mass Update Attributes. See the screenshots below for details.

From Product Edit Form:

Sale  No  
[global]

Warning   
[store view]

From Product Grid Mass Action:

Actions  2045 records found

Time	Type
White Foam Yoga Brick	Simple Product
Overnight Duffel	Simple Product

Update attributes

**Weight**
