Review Notification

This extension sends a notification email to the merchant as soon as a client submits a review for one of the store products.

Extension Settings

This section describes the settings that you can use for configuring your Review Notifications.
To configure the extension go to **Stores** → **Configuration** → **WebPanda Extensions** → **Review Notification.**

Settings

Option	Description
Enable Review Notification	Select to enable or disable the extension functionality.
Notification Recipient Emails	Specify the email addresses, separated by comma, where the review notification is sent to.
Email Sender	Specify the sender for the review notification emails.
Email Template	Configure the email template for the review notification emails.
