

WebPanda

People Watching Social Proof

This extension adds a notification on the product pages to show how popular and in-demand your products are through the actions of other customers. It displays the live visits of the product you are also viewing.

Extension Settings

This section describes the settings that you can use for configuring your People Watching product notification. To configure the extension go to **Stores** → **Configuration** → **WebPanda Extensions** → **People Watching**.

Settings

Option	Description
Enabled	Select to enable or disable the extension functionality.
Minimum Number of Views	Show the notification only when this minimum number of product page views is reached. This includes the "Product Views Number Inflate" field values.
View Lifetime(in minutes)	Specify the number of minutes the product view is valid for. If set to "60" this means that the number of people watching only take into account the product views from the last 60 minutes.
Product Views Number Inflate	Adjust the number of real product views by this value.
Notification Singular Display Text	The notification text that should be displayed on the product page if the product has only 1 person watching.
Notification Plural Display Text	The notification text that should be displayed on the product page if the product has multiple people watching.
Style	Add your custom style to the people watching notification
